TERTIARY INFOTECH ACADEMY PTE LTD

Activity 08

Pilot, Direct and Coach the Change

Continuous Process Improvement with FMEA · TGS-2021009031

Scenario

Orion will pilot an automated stencil-cleaning trigger and first-piece verification on Printer P2.

Objective

Plan a controlled pilot and direct team implementation with coaching and change safeguards.

Deliverable

Pilot charter, before/after measurement plan, risk guardrails, training and coaching checklist

Scenario questions

1. What would cause the pilot to stop immediately?

2. How will the coach distinguish non-adoption from an ineffective countermeasure?

Submission checklist

✓	Check
■	Workbook complete
■	Formulas retained
■	Evidence and assumptions recorded
■	Questions answered
■	Acceptance criterion applied

Acceptance criterion: The pilot is measurable, contained and reversible; the change has approvals, training and a documented scale/revise/stop rule.
